ATHREYA ANAND

OBJECTIVE: Seeking a software internship in order to gain exposure and use experiences in designing programs and mobile applications

SKILLS: JAVA (Proficient), SWIFT (Proficient), JAVASCRIPT (Intermediate), C (Intermediate)

EXPERIENCE

- Became interested in mobile application development and decided to begin a development "studio"
- Made 6 applications but only published three on the android play store
- Top 100 financial applications in three countries for Cuex: a currency exchange app
- Organized servers in Data Center and helped with software maintenance
- Shadowed several developer meetings and helped with basic tasks
- Learned how a leadership team works at the corporate level
- Gained exposure to the plethora of different teams working on unique projects
- Contributed basic Javascript and HTML to the code base
- Worked out of an apartment office and got a true "startup experience"
- Debugged website and designed promo-video
- Shadowed online development meetings and scouted competitor products

PROJECTS

- First mobile application published to the play store
- Incorporates unique gameflow to allow for local "pass & play" multiplayer
- Basic algorithms used to incorporate bot/CPU players to fill minimum player requirement
- Incorporates a machine learning image recognition library in order to distinguish paper notes
- Implements vernote API for note storage and cross platform accessibility
- Incorporates basic calendar functionality to store user/student schedule
- Incorporates custom JSON reader to grab data from online and display efficiently on screen
- Utilizes the reddit API: app grabs stories from multiple subreddits and organizes accordingly
- Incorporates live conversion API that always has the latest exchange rates
- Reached top 100 financial applications in three different countries
